

On behalf of one of our longtime G.R.E.A.T sponsors, CuraMedix, we wanted to let you know about their upcoming **Institute for Tissue Regeneration & Repair Conference—April 22<sup>nd</sup> and 23<sup>rd</sup> in Phoenix, Arizona.**

The Institute for Tissue Regeneration & Repair was created in response to the growing interest and desire to collaborate and deliver interactive educational programs that support the practice of evidence-based/evidence-guided medicine.

Learn more about shockwave and EMTT and how to integrate these evidence-based, non-invasive technologies into your continuum of care.

At this conference, you'll have the opportunity to connect with leading physicians from the US and around the world, scientists, and researchers in the area of multidisciplinary regenerative medicine. Education and training will include lectures, round tables, panels, and hands-on training.

## **Event details**

- Dates:
  - Saturday, April 22nd 8:30am-5:00pm with reception to follow
  - Sunday, April 23rd 8:30am-12:00pm
- Location:
  - The event is being held at the [Hyatt Regency Phoenix](#) where we've secured a great group rate for our attendees.
- Registration:
  - To sign up, please go to: [Registration: The Institute for Tissue Regeneration & Repair-Phoenix 2023](#)

Have questions or need additional information? Please contact [Elise Hamann](#) from CuraMedix.
